AI Visibility Report

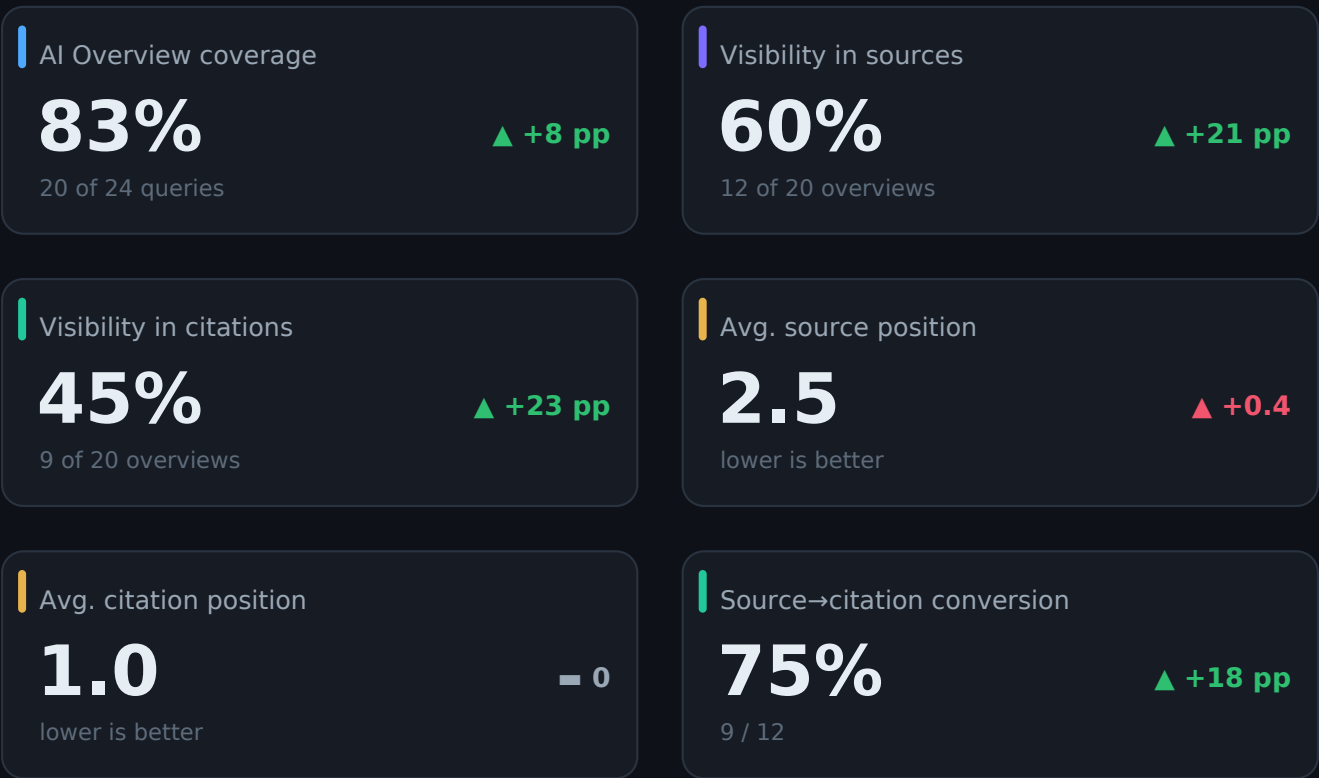

Acme

acme.com

Engine	google
Target domain	acme.com
Period	Whole history
Generated on	22.06.2026 08:03

01 Key metrics

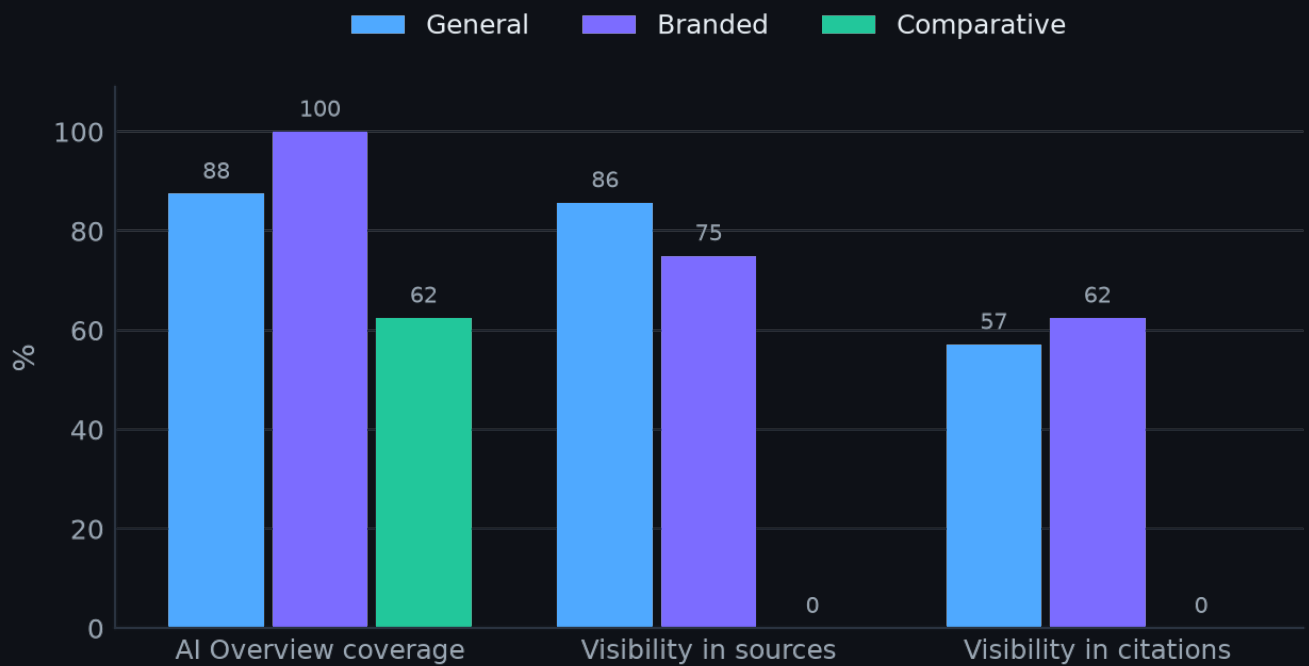

Current run: 09.06.2026 09:00 · compared with previous: 02.06.2026 09:00

02 Query-type breakdown

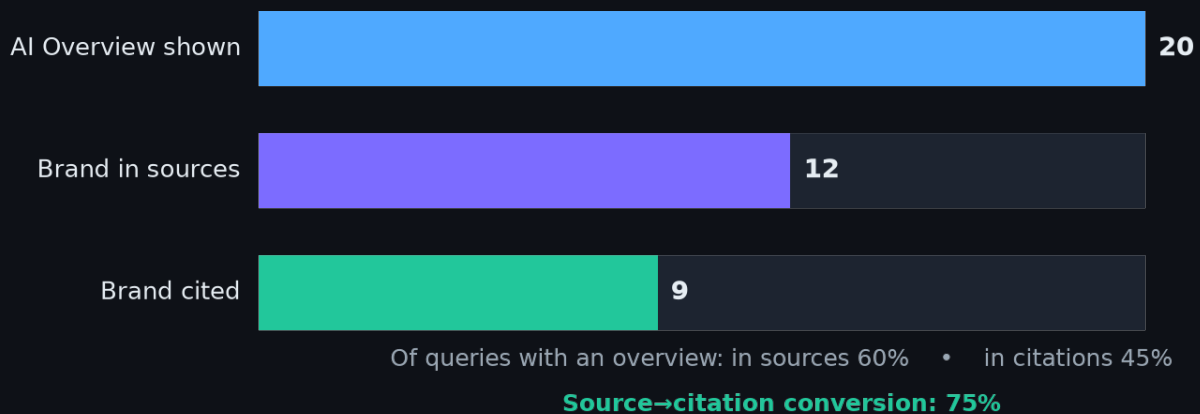

Query type	Coverage	Vis. src.	Vis. cit.	Avg. src pos.	Avg. cit. pos.
• General	88%	86%	57%	2.3	1.0
• Branded	100%	75%	62%	2.7	1.0
• Comparative	62%	0%	0%	—	—
All queries	83%	60%	45%	2.5	1.0

Visibility in % (of queries with an overview); average positions in ranks (lower is better). The "All queries" row is the cross-lens total.

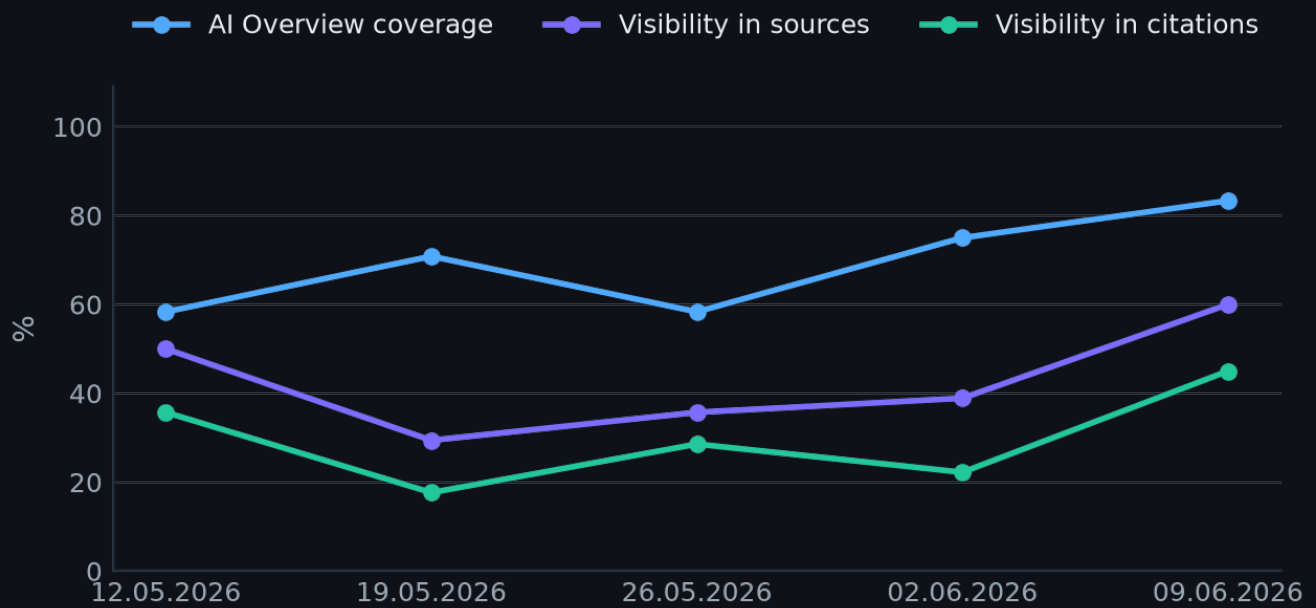

03 Visibility funnel

The brand's path inside AI answers, narrowing at each step: where an overview is shown → where the brand made it into sources → where the brand was cited.

03b Trend across runs

Change in key metrics (the “All queries” lens) across completed runs.

04 Sentiment (qualitative)

Representative phrasings from AI answers about the brand — no numeric score, as-is.

• General

named without a clear judgement, next to competitors
